i-LOG

POWERED BY CELLSTOP

SVR600 SYSTEM FEATURE

CellStop's SARS Approved Logbook - 70% LESS EFFORT THAN OTHER ELECTRONIC LOGBOOKS

THE I-LOG AUTOMATES YOUR LOGBOOK,

BY RECORDING:

- Date, Start time, End time, Distance and Destination
- Private and Business Mileage, which is auto updated

ALL YOU DO IS?

- Identify, destination as Business, Private or en route

HOW DOES IT WORK?

- CellStop will install an SVR600 i-Log tracking system in your vehicle, which utilizes GPS and GPRS
- Every time you switch your ignition on and off the unit records the trip with distances and time
- Identify the destination once as business, private or en route thereafter, i-Log will automatically allocate business and private trips using SARS guidelines
- i-Log will print a SARS TRIP-LOG Certificate
- Data stored for 2 years
